Sappi Europe announces the implementation of a fuel surcharge

Sappi Europe has announced the implementation of a dedicated fuel surcharge of €20 per ton for orders invoiced on or after 16 November 2026. This measure applies across all shipments in Europe in addition to existing contractual base pricing.

Faced with sustained cost inflation across freight networks, mill operations, and essential raw materials that can no longer be absorbed internally in full, this surcharge is being implemented to absorb parts of the volatile short-term cost spikes and ensure production and supply continuity.

Operating dynamically alongside structural base price adjustments, the surcharge will be reviewed regularly and remains adjustable in line with underlying market cost dynamics.

About Sappi

Sappi is a leading global provider of everyday materials made from woodfibre-based renewable resources. As a diversified, innovative and trusted leader focused on sustainable processes and products, Sappi is building a more circular economy by making what it should, not just what it can. Its raw materials offerings (including dissolving pulp, wood pulp and biomaterials) and end-use products (packaging papers, specialty papers, graphic papers, casting and release papers, forestry products) are manufactured from woodfibre sourced from sustainably managed forests and plantations. Many of Sappi's production facilities use internally generated bioenergy, enabling many of its operations to be energy self-sufficient.

Sappi produces 4.6 million tons of paper, 2.3 million tons of paper pulp, 1.5 million tons of dissolving pulp per year. Globally, it has over 11,979 employees, 401,000 ha of owned and leased sustainably managed forests in South Africa. Sappi Limited (JSE) is headquartered in Johannesburg, South Africa with manufacturing operations across three continents and sells its products in more than 150 countries.

Sappi Europe is a division of Sappi Limited where its European mills hold chain of custody certifications under the Forest Stewardship Council™ (FSC™ C015022) and the Programme for the Endorsement of Forest Certification (PEFC/07-32-76) systems. Our papers are produced in mills accredited with ISO 9001, ISO 14001, ISO 50 001 and ISO45 001 certification. We have EMAS registration at 5 of our 8 mills in Europe.
